  - i. The rates per month per light are established in Section 2-117.
    1. 100 Watt (or equivalent) **\$11.25**
    2. 200 Watt (or equivalent) **\$16.50**
    3. 400 Watt (or equivalent) **\$33.00**
- h. **Sec. 40-323. Electric Rate Schedule PQF.**
  - i. **Rate. The City will pay the QF producer for all power purchased at the following rates:**
    1. Capacity. No payment shall be made, except by separate firm power contract between the producer and the City.
    2. Energy. The metered output from the producer will be purchased at a rate equal to the average base wholesale kilowatt-hour energy cost for power paid by the City. This average base wholesale kilowatt-hour energy cost will be calculated based upon the past years average wholesale cost and will be updated once a year (in October) to update this value. In the event that the producer exercises the option to sell power to the City, there will be assessed, in addition to the minimum monthly bill requirements under the applicable service rate schedule, a customer service charge of **\$15.00** per month to cover costs realized for metering, billing, maintenance, administrative, and other expenses necessary to maintain service to the QF.
- i. **Sec. 40-325. Electric Rate Schedule SRE.**
  - i. Rate. In a billing month after the retail customer receives approval to interconnect their on-site generating system to the City s electric distribution system, the customer will be billed:
    1. Based upon their current electric service rate for the kilowatt-hours used from the City s electric distribution system. The excess kilowatt-hours that are passed back to the system from their on-site generation will be purchased at a rate equal to the average base wholesale kilowatt-hour energy cost for power paid by the City. This average base wholesale kilowatt-hour energy cost will be calculated based upon the past years average wholesale cost and will be updated once a year (in October) to update this value.
    2. The calculated amount for the excess kilowatt-hours passed back to the system will be credited to the current balance of the retail customer s utility account. If a credit exists at any time on the account,

the customer may request in writing a refund for the credit amount.  
If the customer closes the account with a credit remainder in their account, they will be refunded this amount.
